

IOWA-STYLE GRADE 5 COMPREHENSIVE PRACTICE TEST

Student Booklet

Student name: _____

Date started: _____ Date completed: _____

ORIGINAL PRACTICE MATERIAL - NOT AN OFFICIAL IOWA ASSESSMENTS TEST

Level 11-inspired complete battery - 361 questions - 10 subtests

Student Directions

This practice test contains ten separate subtests. Read each section's directions carefully. Choose the best answer for every question. If you are unsure, eliminate choices that are clearly wrong and make your best choice. Do not spend too long on one question.

Subtests and suggested timing

Subtest	Questions	Suggested time	Primary skills
Vocabulary	37	15 min	Word meaning and context
Reading	43	60 min	Literary and informational comprehension
Written Expression	40	40 min	Revision, usage, grammar
Mathematics	60	60 min	Concepts, relationships, problem solving
Science	37	35 min	Inquiry, life, physical, earth/space
Social Studies	37	35 min	History, geography, civics, economics
Spelling	30	10 min	Correct spelling patterns
Capitalization	24	10 min	Standard capitalization
Punctuation	24	10 min	Standard punctuation
Computation	29	20 min	Arithmetic accuracy

Total: 361 questions; approximately 4 hours 55 minutes of working time. Complete the test in multiple sessions.

Vocabulary

Questions	Suggested time	Materials
37	15 minutes	Pencil and scratch paper

Directions: Choose the answer that best matches the meaning of the word or completes the sentence.

Do not begin until the person administering the practice test says to start.

- The word scarce most nearly means -
 - easy to carry
 - hard to find
 - brightly colored
 - carefully arranged
- The word cautious most nearly means -
 - careful
 - cheerful
 - curious
 - careless
- Which word means the opposite of ancient?
 - fragile
 - modern
 - distant
 - famous
- The hikers were exhausted after climbing the steep trail. Exhausted means -
 - very tired
 - slightly lost
 - quite hungry
 - badly injured
- Which word best completes the sentence? The glass vase was so _____ that Mia carried it with both hands.
 - sturdy
 - fragile
 - ordinary
 - enormous
- The word predict most nearly means -
 - explain what happened
 - tell what may happen
 - hide what is known
 - measure exactly
- Which word belongs with enormous, huge, and gigantic?
 - tiny
 - massive
 - empty
 - smooth
- The crowd was silent during the solemn ceremony. Solemn means -
 - serious
 - noisy
 - confusing
 - brief

9. Which word means to make something better?
- A. improve
 - B. remove
 - C. observe
 - D. divide
10. The word reluctant most nearly means -
- A. unwilling
 - B. unable
 - C. excited
 - D. certain
11. Which word is most nearly the opposite of expand?
- A. stretch
 - B. increase
 - C. shrink
 - D. develop
12. The scientist recorded the precise temperature. Precise means -
- A. exact
 - B. average
 - C. unusual
 - D. changing
13. Which word best completes the sentence? The puppy was _____ and greeted every visitor.
- A. friendly
 - B. fierce
 - C. drowsy
 - D. nervous
14. The word consequence most nearly means -
- A. a cause
 - B. a result
 - C. a question
 - D. a warning
15. Which word means to examine closely?
- A. inspect
 - B. ignore
 - C. collect
 - D. announce
16. The word frequent most nearly means -
- A. happening often
 - B. happening once
 - C. moving slowly
 - D. ending suddenly
17. Which word is most nearly the opposite of permit?
- A. allow
 - B. forbid
 - C. request
 - D. decide

- 18.** The abandoned cabin had been empty for years. Abandoned means -
- A. left behind
 - B. newly built
 - C. well protected
 - D. crowded
- 19.** Which word best completes the sentence? Because the directions were _____, everyone knew what to do.
- A. clear
 - B. lengthy
 - C. secret
 - D. incorrect
- 20.** The word essential most nearly means -
- A. optional
 - B. necessary
 - C. temporary
 - D. expensive
- 21.** Which word belongs with whisper, murmur, and mutter?
- A. shout
 - B. speak softly
 - C. laugh
 - D. sing
- 22.** The river's current was swift after the storm. Swift means -
- A. muddy
 - B. fast
 - C. shallow
 - D. cold
- 23.** Which word means a planned series of actions?
- A. strategy
 - B. accident
 - C. memory
 - D. talent
- 24.** The word resemble most nearly means -
- A. look like
 - B. argue with
 - C. move toward
 - D. care for
- 25.** Which word is most nearly the opposite of ordinary?
- A. common
 - B. usual
 - C. remarkable
 - D. plain
- 26.** The audience applauded the musician's remarkable performance. Remarkable means -
- A. very impressive
 - B. quite short
 - C. poorly planned
 - D. hard to hear

27. Which word best completes the sentence? The coach asked the players to _____ on passing the ball accurately.
- A. focus
 - B. wander
 - C. complain
 - D. hesitate
28. The word diminish most nearly means -
- A. decrease
 - B. decorate
 - C. discover
 - D. describe
29. Which word means able to be trusted?
- A. reliable
 - B. flexible
 - C. visible
 - D. valuable
30. The teacher gave a brief summary of the chapter. Brief means -
- A. short
 - B. confusing
 - C. detailed
 - D. spoken
31. Which word is most nearly the opposite of generous?
- A. selfish
 - B. helpful
 - C. patient
 - D. honest
32. The word distribute most nearly means -
- A. gather in one place
 - B. give out to several people
 - C. throw away
 - D. count twice
33. Which word best completes the sentence? The path was _____ by fallen branches, so the hikers turned back.
- A. blocked
 - B. marked
 - C. shortened
 - D. surrounded
34. The word evident most nearly means -
- A. hidden
 - B. obvious
 - C. unlikely
 - D. temporary
35. Which word means to keep something from happening?
- A. prevent
 - B. repeat
 - C. prepare
 - D. present

36. The old bridge remained stable during the strong winds. Stable means -

- A.** steady
- B.** narrow
- C.** closed
- D.** ancient

37. Which word best completes the sentence? Elena gave a _____ explanation that included every important step.

- A.** thorough
- B.** careless
- C.** silent
- D.** humorous

Reading - Part 1

Questions	Suggested time	Materials
22	30 minutes	Pencil and scratch paper

Directions: Read each passage carefully. Then answer the questions using information from the passage and reasonable inferences.

Do not begin until the person administering the practice test says to start.

The Empty Plot

Every afternoon, Lena walked past an empty lot between the bakery and the apartment building. Weeds pushed through cracked soil, and wind-blown wrappers gathered along the fence. Most people hurried by without looking.

One Saturday, Lena carried a small cardboard sign to the lot. It read: FUTURE COMMUNITY GARDEN. Her neighbor Mr. Ortiz laughed kindly. "A sign cannot grow tomatoes," he said.

"No," Lena replied, "but it can grow an idea."

At first, only Lena pulled weeds. The next morning, Mr. Ortiz arrived with a rake. By noon, the baker had brought a bucket of water. A week later, three families were turning the soil and building narrow garden beds from old boards.

The work was slow. A late frost damaged the first seedlings, and rabbits discovered the lettuce. Still, the neighbors replanted. By midsummer, sunflowers leaned over the fence, beans climbed strings, and children counted red tomatoes.

On the day of the first harvest, Mr. Ortiz handed Lena a tomato. "You were right," he said. "The sign grew more than an idea." Lena looked around at the neighbors sharing baskets and stories. The empty plot had become a place where people stopped instead of hurried.

1. What is the main idea of the passage?

- A. Gardens require expensive tools.
- B. One person's idea can bring a community together.
- C. Rabbits are difficult to keep away from vegetables.
- D. Bakeries and gardens should be built near each other.

2. Why does Mr. Ortiz first say, 'A sign cannot grow tomatoes'?

- A. He thinks Lena's plan is unlikely to succeed.
- B. He wants Lena to buy tomato plants.
- C. He believes signs harm the soil.
- D. He does not understand what the sign says.

3. Which event happens first?

- A. Rabbits eat the lettuce.
- B. The baker brings water.
- C. Families build garden beds.
- D. Lena places a sign in the lot.

4. What does the phrase 'it can grow an idea' suggest?

- A. Ideas need sunlight and water.
- B. A sign can encourage people to take action.
- C. Tomato plants grow better near signs.
- D. Lena plans to write more signs.

5. Which detail best shows that the neighbors did not give up?

- A. They built beds from old boards.
- B. They hurried past the lot.
- C. They replanted after frost and rabbits damaged crops.
- D. They counted the tomatoes.

6. How has the lot changed by the end?

- A. It is cleaner but still unused.
- B. It has become a place for food and friendship.
- C. It has been sold to the bakery.
- D. It is used only by children.

Fire on the Prairie

A wildfire can destroy homes and threaten lives, but not every grassland fire is harmful. For thousands of years, lightning and carefully managed fires have helped maintain prairies.

Prairie grasses store much of their living tissue below ground in thick roots. When fire moves quickly across the surface, the roots often survive. Within weeks, new green shoots appear. Many young trees, however, cannot survive repeated fires. Without occasional fire, trees and shrubs may spread until a prairie gradually becomes woodland.

Fire also returns nutrients to the soil. Dead stems and leaves are changed into ash, which contains minerals plants can use. The blackened ground absorbs sunlight and warms quickly in spring. Some seeds even sprout more successfully after heat or smoke has affected them.

Today, trained land managers sometimes conduct prescribed burns. Before lighting a fire, they study weather conditions, prepare firebreaks, and position crews with water and tools. A prescribed burn is planned for a specific area and time. If winds are too strong or the air is too dry, the burn is postponed.

Fire is therefore both powerful and complicated. In the wrong place or under dangerous conditions, it can be disastrous. Used carefully in fire-adapted ecosystems, it can help preserve the prairie.

7. What is the author's main purpose?

- A. To explain how carefully managed fire can benefit prairies
- B. To persuade readers to start fires in grasslands
- C. To describe how to plant prairie grasses
- D. To compare forests with deserts

8. Why do many prairie grasses survive a fast-moving fire?

- A. Their leaves are covered with water.
- B. Their main living tissue is protected below ground.
- C. They grow only during winter.
- D. Their seeds are carried away by wind.

9. What may happen to a prairie without occasional fire?

- A. It may become woodland.
- B. It may turn into a lake.
- C. Its soil may freeze all year.
- D. Its grasses may grow into crops.

10. Which step helps managers keep a prescribed burn controlled?

- A. Planting trees before the burn
- B. Waiting until the strongest wind
- C. Preparing firebreaks and crews
- D. Removing all grass roots

11. In the passage, prescribed most nearly means -
- A. planned and directed
 - B. unexpected and wild
 - C. small and harmless
 - D. ancient and natural
12. Which statement best summarizes the final paragraph?
- A. Fire is always destructive.
 - B. Fire should be used in every ecosystem.
 - C. Fire can harm or help depending on how and where it occurs.
 - D. Prairie fires are easier to control than forest fires.

Night Train

The train writes silver lines through rain,
then drums across the bridge.
The sleeping farms are folded dark
beneath the moonlit ridge.

Inside, a child leans on the glass
and watches towns appear -
a porch light, then a water tower,
then nothing drawing near.

The whistle sends a lonely note
across the fields of wheat.
The child counts every distant star
while wheels repeat, repeat.

13. Which sound is repeated in the poem?
- A. Falling books
 - B. Turning wheels
 - C. Barking dogs
 - D. Ringing phones
14. What mood does the poem mostly create?
- A. Peaceful and thoughtful
 - B. Angry and hurried
 - C. Silly and playful
 - D. Frightening and dangerous
15. What does 'the sleeping farms are folded dark' mean?
- A. The farms have been covered with paper.
 - B. The farms are quiet and difficult to see at night.
 - C. The farms are being moved by the train.
 - D. The fields have been harvested.
16. Why does the poet mention a porch light and a water tower?
- A. To show brief sights passing the window
 - B. To explain how towns produce electricity
 - C. To prove the child knows the route
 - D. To describe where the train will stop
17. Which line contains personification?
- A. The train writes silver lines through rain
 - B. Inside, a child leans on the glass
 - C. The child counts every distant star
 - D. The whistle sends a lonely note

Make a Rain Gauge

You can measure rainfall with a clear plastic bottle, a ruler, small stones, tape, and scissors. Ask an adult to cut off the top third of the bottle. Place a layer of stones in the bottom so the bottle will not tip over. Pour in enough water to cover the stones.

Use a ruler to mark a zero line at the top of the water. Then mark centimeters upward along the side of the bottle. Turn the cut-off top upside down and place it inside the bottle like a funnel. Tape the sharp edge.

Set the gauge outdoors in an open area, away from trees and roofs. After rain, read the water level from the zero line, not from the bottom of the bottle. Record the amount, empty extra water until it returns to zero, and place the gauge outside again.

18. Why are stones placed in the bottom of the bottle?

- A. To filter the rain
- B. To keep the bottle from tipping
- C. To measure centimeters
- D. To make the water colder

19. Where should the zero line be marked?

- A. At the bottom of the stones
- B. At the top edge of the bottle
- C. At the top of the water covering the stones
- D. At the first centimeter mark on the ruler

20. What is the purpose of turning the top upside down?

- A. It forms a funnel that directs rain into the bottle.
- B. It prevents anyone from seeing the water.
- C. It makes the bottle shorter.
- D. It measures the temperature.

21. Why should the gauge be placed away from trees and roofs?

- A. They may block or redirect rain.
- B. They make the stones heavier.
- C. They cause the ruler to fade.
- D. They prevent water from evaporating.

22. What should be done immediately after recording the rainfall?

- A. Add more stones.
- B. Cut a new bottle top.
- C. Return the water level to zero.
- D. Move the gauge beneath a roof.

Written Expression - Part 1

Questions	Suggested time	Materials
20	20 minutes	Pencil and scratch paper

Directions: Read each draft and choose the revision that makes the writing clearest, most organized, and most effective.

Do not begin until the person administering the practice test says to start.

A Visit to the Museum

- (1) Last Friday our class visited the science museum.
- (2) The first room had fossils from animals that lived millions of years ago.
- (3) I like pizza with mushrooms.
- (4) Next, we watched a worker demonstrate how a small tornado forms.
- (5) The trip made science feel more real than it did in a textbook.

1. Which sentence should be removed because it does not belong?

- A. Sentence 1
- B. Sentence 2
- C. Sentence 3
- D. Sentence 5

2. Which is the best transition to add at the beginning of sentence 2?

- A. For example,
- B. First,
- C. However,
- D. As a result,

3. Which revision makes sentence 4 most precise?

- A. Next, we saw a thing happen.
- B. Next, we watched a museum educator create a spinning column of air in a clear chamber.
- C. Next, it was good and interesting.
- D. Next, the tornado was something.

4. Which sentence would best follow sentence 2?

- A. A guide explained how scientists use bones to learn about extinct animals.
- B. The bus driver waited in the parking lot.
- C. Museums are buildings.
- D. I wore blue shoes that day.

5. Which is the best concluding sentence?

- A. That is all I have to say.
- B. I hope our next science lesson gives us another chance to investigate like museum scientists.
- C. The museum closed at five.
- D. Some textbooks are heavy.

The Lost Dog

- (1) Maya noticed a small dog wandering beside the soccer field.
- (2) It had a red collar but no leash.
- (3) Maya approached slowly so she would not frighten it.
- (4) She read the phone number on its tag.
- (5) Soon, the dog's owner arrived and thanked her.

6. Which sentence best combines sentences 1 and 2?
- A. Maya noticed a small dog, and the soccer field wandered beside it.
 - B. Maya noticed a small dog with a red collar wandering beside the soccer field.
 - C. A red collar was small beside Maya.
 - D. Maya noticed, beside the soccer field, and a dog.
7. Which word best replaces approached in sentence 3?
- A. rushed toward
 - B. moved closer to
 - C. shouted at
 - D. turned away from
8. Which detail would best explain how Maya helped?
- A. The soccer field was green.
 - B. She called the number and described where she had found the dog.
 - C. The dog had four paws.
 - D. Maya liked animals.
9. Which transition best begins sentence 4?
- A. After the dog came near,
 - B. On the other hand,
 - C. For many years,
 - D. In comparison,
10. Which title best fits the paragraph?
- A. A Responsible Choice
 - B. How Soccer Began
 - C. The Red Uniform
 - D. A Day Without Animals

Saving Water

- (1) Families can save water in several simple ways.
 - (2) A dripping faucet may waste many gallons over time.
 - (3) Fixing leaks is one useful step.
 - (4) Turning off the water while brushing teeth also helps.
 - (5) Water is wet.
 - (6) Small habits can protect an important resource.
11. Which sentence should be removed?
- A. Sentence 1
 - B. Sentence 2
 - C. Sentence 5
 - D. Sentence 6
12. Which is the best order for sentences 2 and 3?
- A. Keep the current order.
 - B. Move sentence 3 before sentence 1.
 - C. Move sentence 2 after sentence 6.
 - D. Delete both sentences.
13. Which sentence would best add another supporting example?
- A. Taking shorter showers can reduce water use.
 - B. Oceans contain salt water.
 - C. Some faucets are silver.
 - D. Everyone needs shoes.

14. Which phrase best connects sentence 4 to the previous idea?

- A. Another useful habit is
- B. Long ago
- C. For the opposite reason
- D. Without warning

15. Which revision makes sentence 6 stronger?

- A. Small daily choices can add up to meaningful water savings.
- B. Small habits are small.
- C. Water is an important resource thing.
- D. There are habits and resources.

Preparing for the Concert

(1) Our band had practiced for the spring concert for six weeks.

(2) On the afternoon of the concert, we tuned our instruments and arranged our music stands.

(3) I felt nervous when the curtain opened.

(4) The audience became quiet.

(5) After the first song, my hands stopped shaking.

(6) We finished the final piece together, and the audience applauded.

16. Which sentence best combines sentences 3 and 4?

- A. When the curtain opened and the audience became quiet, I felt nervous.
- B. The audience felt nervous, the curtain opened me.
- C. I felt, when quiet, the audience opened.
- D. The curtain was nervous and quiet.

17. Which detail would best strengthen sentence 1?

- A. We repeated the difficult ending until every section entered at the right time.
- B. The school had many classrooms.
- C. Spring comes after winter.
- D. Some instruments are made of metal.

18. Which transition best begins sentence 5?

- A. At first,
- B. However,
- C. By contrast,
- D. For example,

19. Which word best replaces finished in sentence 6?

- A. performed
- B. lost
- C. forgot
- D. covered

20. Which sentence best states the central idea?

- A. Practice helped the band perform successfully despite nervousness.
- B. The audience sat in chairs.
- C. Music stands hold pages.
- D. Concerts are always held in spring.

Mathematics - Part 1

Questions	Suggested time	Materials
30	30 minutes	Pencil and scratch paper

Directions: Solve each problem. Use scratch paper when needed. Choose the best answer.

Do not begin until the person administering the practice test says to start.

1. What is the value of the digit 7 in 473,216?

- A. 7,000
- B. 70,000
- C. 700,000
- D. 700

2. Which number is greatest?

- A. 398,765
- B. 398,675
- C. 389,765
- D. 398,756

3. Round 684,219 to the nearest ten thousand.

- A. 680,000
- B. 684,000
- C. 690,000
- D. 700,000

4. Which expression equals 48,306?

- A. $40,000 + 8,000 + 300 + 6$
- B. $48,000 + 30 + 6$
- C. $4,000 + 800 + 30 + 6$
- D. $40,000 + 800 + 300 + 6$

5. A stadium has 18,745 seats. An additional 2,680 seats are installed. How many seats are there now?

- A. 16,065
- B. 20,325
- C. 21,425
- D. 21,525

6. A warehouse shipped 7,896 boxes from a supply of 24,300. How many boxes remain?

- A. 16,404
- B. 16,414
- C. 17,404
- D. 32,196

7. What is 326×24 ?

- A. 7,224
- B. 7,824
- C. 8,124
- D. 8,624

8. What is 5,544 divided by 18?

- A. 208
- B. 288
- C. 308
- D. 328

9. A school buys 36 boxes of markers. Each box contains 24 markers. How many markers are purchased?
- A. 60
 - B. 144
 - C. 720
 - D. 864
10. Nine buses carry 432 students equally. How many students are on each bus?
- A. 42
 - B. 48
 - C. 52
 - D. 54
11. Which expression should be evaluated first in $18 + 6 \times 4$?
- A. $18 + 6$
 - B. 6×4
 - C. 18×4
 - D. 24×4
12. What is the value of $7 + 3 \times (12 - 8)$?
- A. 19
 - B. 28
 - C. 40
 - D. 68
13. Which number is a factor of 42?
- A. 5
 - B. 6
 - C. 8
 - D. 9
14. Which number is prime?
- A. 21
 - B. 27
 - C. 29
 - D. 33
15. What is the least common multiple of 4 and 6?
- A. 10
 - B. 12
 - C. 18
 - D. 24
16. A pattern begins 5, 11, 17, 23. What is the rule?
- A. Add 5
 - B. Add 6
 - C. Multiply by 2 and add 1
 - D. Subtract 6
17. If $n = 8$, what is the value of $5n + 3$?
- A. 16
 - B. 35
 - C. 40
 - D. 43

18. Which equation represents 'a number decreased by 12 equals 35'?

- A. $n + 12 = 35$
- B. $n - 12 = 35$
- C. $12 - n = 35$
- D. $35 - 12 = n$

19. A book costs \$14. Three identical books and a \$6 notebook cost how much altogether?

- A. \$20
- B. \$42
- C. \$48
- D. \$60

20. A farmer packs 1,275 apples into bags of 8. How many full bags can be made, and how many apples remain?

- A. 158 bags, 11 remain
- B. 159 bags, 3 remain
- C. 159 bags, 5 remain
- D. 160 bags, 5 remain

21. Which fraction is equivalent to $\frac{3}{5}$?

- A. $\frac{6}{15}$
- B. $\frac{9}{15}$
- C. $\frac{12}{25}$
- D. $\frac{15}{20}$

22. Which fraction is greatest?

- A. $\frac{3}{8}$
- B. $\frac{1}{2}$
- C. $\frac{5}{12}$
- D. $\frac{7}{16}$

23. What is $\frac{3}{4} + \frac{1}{8}$?

- A. $\frac{4}{12}$
- B. $\frac{4}{8}$
- C. $\frac{7}{8}$
- D. 1

24. What is $\frac{5}{6} - \frac{1}{4}$?

- A. $\frac{4}{2}$
- B. $\frac{4}{10}$
- C. $\frac{7}{12}$
- D. $\frac{2}{3}$

25. What is $2\frac{1}{3} + 1\frac{5}{6}$?

- A. $3\frac{1}{2}$
- B. $4\frac{1}{6}$
- C. $4\frac{2}{9}$
- D. $4\frac{5}{6}$

26. What is $6\frac{1}{4} - 2\frac{2}{3}$?

- A. $3\frac{5}{12}$
- B. $3\frac{7}{12}$
- C. $4\frac{1}{12}$
- D. $4\frac{5}{12}$

27. What is $4 \times \frac{2}{3}$?

- A. $\frac{2}{12}$
- B. $\frac{6}{3}$
- C. $2\frac{2}{3}$
- D. $\frac{8}{12}$

28. A recipe uses $\frac{3}{4}$ cup of oats for one batch. How many cups are needed for 3 batches?

- A. $1\frac{1}{2}$
- B. 2
- C. $2\frac{1}{4}$
- D. $3\frac{3}{4}$

29. Lena walked $\frac{2}{5}$ mile in the morning and $\frac{3}{10}$ mile in the afternoon. How far did she walk?

- A. $\frac{1}{2}$ mile
- B. $\frac{7}{10}$ mile
- C. $\frac{5}{15}$ mile
- D. 1 mile

30. A 5-meter ribbon is cut into pieces that are each $\frac{1}{4}$ meter long. How many pieces are made?

- A. 9
- B. 10
- C. 20
- D. 25

Computation

Questions	Suggested time	Materials
29	20 minutes	Pencil and scratch paper

Directions: Compute each answer. Choice D, "N," means the correct answer is not given among choices A-C.

Do not begin until the person administering the practice test says to start.

1. $4,786 + 2,945 =$

- A. 7,621
- B. 7,731
- C. 7,831
- D. N

2. $12,000 - 7,468 =$

- A. 4,432
- B. 4,532
- C. 5,532
- D. N

3. $384 \times 7 =$

- A. 2,588
- B. 2,688
- C. 2,788
- D. N

4. $246 \times 35 =$

- A. 8,510
- B. 8,610
- C. 8,710
- D. N

5. $6,912 \div 24 =$

- A. 278
- B. 288
- C. 298
- D. N

6. $5,775 \div 15 =$

- A. 375
- B. 385
- C. 395
- D. N

7. $91,304 + 8,796 =$

- A. 99,100
- B. 100,000
- C. 100,100
- D. N

8. $50,000 - 26,789 =$

- A. 23,111
- B. 23,211
- C. 24,211
- D. N

9. $4.85 + 7.6 =$

- A.** 11.45
- B.** 12.45
- C.** 12.55
- D.** N

10. $18.2 - 9.74 =$

- A.** 8.36
- B.** 8.46
- C.** 9.46
- D.** N

11. $3.6 \times 8 =$

- A.** 24.8
- B.** 28.8
- C.** 32.8
- D.** N

12. $0.48 \times 5 =$

- A.** 0.240
- B.** 2.4
- C.** 24
- D.** N

13. $7.25 + 0.809 =$

- A.** 8.059
- B.** 8.159
- C.** 80.59
- D.** N

14. $20 - 6.875 =$

- A.** 13.025
- B.** 13.125
- C.** 14.125
- D.** N

15. $\frac{2}{5} + \frac{1}{5} =$

- A.** $\frac{2}{10}$
- B.** $\frac{3}{5}$
- C.** $\frac{3}{10}$
- D.** N

16. $\frac{7}{8} - \frac{3}{8} =$

- A.** $\frac{1}{2}$
- B.** $\frac{4}{16}$

- D.** N

17. $\frac{2}{3} + \frac{1}{6} =$

- A.** $\frac{3}{9}$
- B.** $\frac{4}{6}$
- C.** $\frac{5}{6}$
- D.** N

18. $5/6 - 1/4 =$

- A. $4/10$
- B. $6/12$
- C. $7/12$
- D. N

19. $3 \times 4/5 =$

- A. $7/5$
- B. $12/5$
- C. $12/15$
- D. N

20. $5 \times 2/7 =$

- A. $7/10$
- B. $10/7$
- C. $10/35$
- D. N

21. $1 \frac{3}{4} + 2 \frac{1}{2} =$

- A. $3 \frac{1}{4}$
- B. $4 \frac{1}{4}$
- C. $4 \frac{3}{4}$
- D. N

22. $6 \frac{1}{3} - 2 \frac{5}{6} =$

- A. $3 \frac{1}{2}$
- B. $3 \frac{2}{3}$
- C. $4 \frac{1}{2}$
- D. N

23. $(18 + 6) / 3 =$

- A. 6
- B. 8
- C. 12
- D. N

24. $7 + 5 \times 4 =$

- A. 27
- B. 48
- C. 60
- D. N

25. $9 \times (12 - 7) =$

- A. 36
- B. 45
- C. 63
- D. N

26. $3,456 / 9 =$

- A. 374
- B. 384
- C. 394
- D. N

27. $625 \times 16 =$

- A. 9,000
- B. 10,000
- C. 10,625
- D. N

28. $14.4 \div 6 =$

- A. 2.4
- B. 2.6
- C. 8.4
- D. N

29. $4 \frac{2}{5} + 3 \frac{3}{10} =$

- A. $7 \frac{1}{2}$
- B. $7 \frac{7}{10}$
- C. $8 \frac{1}{5}$
- D. N

Science

Questions	Suggested time	Materials
37	35 minutes	Pencil and scratch paper

Directions: Choose the best answer. Use scientific evidence, concepts, and reasoning.

Do not begin until the person administering the practice test says to start.

- A student wants to test whether sunlight affects bean plant growth. Which variable should be changed?
 - Amount of sunlight
 - Type of bean seed
 - Amount of water
 - Size of pot
- Why should an experiment be repeated several times?
 - To change the question
 - To make results more reliable
 - To avoid recording data
 - To guarantee the prediction is correct
- Which tool is best for measuring the volume of water?
 - Thermometer
 - Balance
 - Graduated cylinder
 - Meter stick
- A plant receives 50 mL of water daily and grows 2 cm in one week. What is an observation?
 - The plant likes water.
 - The plant will grow forever.
 - The plant grew 2 cm.
 - Water is the best liquid.
- Which graph is usually best for showing temperature changes over seven days?
 - Line graph
 - Circle graph
 - Pictograph only
 - Map
- Two groups get different results from the same experiment. What should they do first?
 - Hide one result
 - Compare procedures and measurements
 - Choose the result they prefer
 - Stop experimenting
- Which statement is a testable hypothesis?
 - Blue is the prettiest color.
 - Plants given more light will grow taller in two weeks.
 - Dogs are better than cats.
 - Summer is enjoyable.
- Which structure carries water from a plant's roots to its leaves?
 - Stem
 - Flower
 - Fruit
 - Seed coat

9. What is the main function of a flower?

- A. Absorb water
- B. Make food
- C. Help the plant reproduce
- D. Anchor the plant

10. Which organism is a producer?

- A. Grass
- B. Rabbit
- C. Hawk
- D. Mushroom

11. In the food chain grass → grasshopper → frog → snake, what would most likely happen if grasshoppers decreased greatly?

- A. Frogs would have less food.
- B. Grass would disappear immediately.
- C. Snakes would become producers.
- D. Frogs would eat more grass.

12. What role do decomposers play in an ecosystem?

- A. They make sunlight.
- B. They break down dead matter and recycle nutrients.
- C. They hunt all producers.
- D. They stop water from evaporating.

13. Which trait is inherited rather than learned?

- A. Knowing how to ride a bicycle
- B. Having naturally curly hair
- C. Speaking two languages
- D. Playing the piano

14. Why do arctic foxes have thick fur?

- A. It helps them write tracks.
- B. It helps them conserve body heat.
- C. It helps them find plants.
- D. It makes them move more slowly.

15. Which body system brings oxygen into the body?

- A. Digestive
- B. Respiratory
- C. Skeletal
- D. Nervous

16. What is the main job of the digestive system?

- A. Break food into usable nutrients
- B. Move bones
- C. Send electrical signals
- D. Protect the brain

17. Which behavior is an example of an animal responding to seasonal change?

- A. A bird migrates south in autumn.
- B. A fish swims around a rock.
- C. A dog drinks from a bowl.
- D. A squirrel climbs one tree.

- 18.** Matter that keeps its own shape and volume is a -
- A.** solid
 - B.** liquid
 - C.** gas
 - D.** solution
- 19.** When ice melts, it changes from -
- A.** gas to liquid
 - B.** solid to liquid
 - C.** liquid to solid
 - D.** solid to gas only
- 20.** Which change is reversible?
- A.** Burning paper
 - B.** Rusting iron
 - C.** Freezing water
 - D.** Baking a cake
- 21.** A metal spoon feels colder than a wooden spoon in the same room because metal -
- A.** has a lower temperature
 - B.** conducts heat away from the hand faster
 - C.** contains frozen water
 - D.** creates cold energy
- 22.** Which material is the best electrical conductor?
- A.** Copper wire
 - B.** Rubber band
 - C.** Plastic ruler
 - D.** Wooden stick
- 23.** A bulb lights in a simple circuit only when -
- A.** the circuit is closed
 - B.** the wire is cut
 - C.** the battery is removed
 - D.** the switch is open
- 24.** Which force pulls objects toward Earth?
- A.** Friction
 - B.** Gravity
 - C.** Magnetism
 - D.** Electric current
- 25.** Friction usually causes a moving object to -
- A.** speed up forever
 - B.** slow down
 - C.** lose all mass
 - D.** become magnetic
- 26.** Which change would increase the strength of an electromagnet?
- A.** Remove the battery
 - B.** Use fewer wire coils
 - C.** Add more wire coils around the nail
 - D.** Replace the wire with string

- 27.** Sound is produced by -
- A.** vibrations
 - B.** shadows
 - C.** gravity
 - D.** evaporation
- 28.** Which surface would reflect the most light?
- A.** A smooth mirror
 - B.** A black cloth
 - C.** A rough brick
 - D.** A pile of soil
- 29.** What causes day and night?
- A.** Earth revolves around the Sun.
 - B.** Earth rotates on its axis.
 - C.** The Moon blocks the Sun each night.
 - D.** Clouds cover half of Earth.
- 30.** About how long does Earth take to orbit the Sun once?
- A.** 24 hours
 - B.** One month
 - C.** One year
 - D.** Ten years
- 31.** Why does the Moon appear to change shape during a month?
- A.** The Moon grows and shrinks.
 - B.** We see different portions of its sunlit half.
 - C.** Clouds cover exact sections of it.
 - D.** Earth's shadow causes every phase.
- 32.** Which process changes liquid water into water vapor?
- A.** Condensation
 - B.** Evaporation
 - C.** Freezing
 - D.** Precipitation
- 33.** Clouds form when water vapor cools and -
- A.** condenses
 - B.** melts
 - C.** freezes underground
 - D.** becomes salt
- 34.** Which instrument measures air temperature?
- A.** Rain gauge
 - B.** Thermometer
 - C.** Anemometer
 - D.** Compass
- 35.** A sedimentary rock most often forms when -
- A.** magma cools
 - B.** layers of sediment are pressed and cemented
 - C.** a rock melts completely
 - D.** lightning strikes sand

36. Which process can slowly wear away rock at Earth's surface?

- A.** Erosion
- B.** Condensation
- C.** Magnetism
- D.** Photosynthesis

37. Fossils are most useful for learning about -

- A.** future weather
- B.** organisms and environments from the past
- C.** the exact age of the Sun
- D.** current traffic patterns

Reading - Part 2

Questions	Suggested time	Materials
21	30 minutes	Pencil and scratch paper

Directions: Read each passage carefully. Then answer the questions. Some questions require an inference or comparison.

Do not begin until the person administering the practice test says to start.

The Mapmaker's Mistake

In 1846, fourteen-year-old Eli worked in his uncle's print shop. One morning, a merchant ordered fifty maps showing a new road to the river port. Eli carefully copied the route onto a metal plate. He was proud when the first map rolled from the press.

Then he noticed a problem. At a fork in the road, he had drawn the river route bending east instead of west. Travelers following the map could end up miles from the port. Eli's uncle was meeting a customer across town, and the merchant expected the maps that afternoon.

Eli considered hiding the mistake beneath a thick ink mark. Instead, he stopped the press. He melted a small patch of wax onto the plate, recut the correct line, and printed a test sheet. The repair was not perfect, but the route was accurate.

When his uncle returned, Eli showed him the spoiled maps and explained what had happened. His uncle studied the corrected sheet. "Paper can be replaced," he said. "Trust is harder to print twice."

The merchant received the maps one day late. Years afterward, when Eli opened his own shop, the merchant became one of his first customers.

23. What problem does Eli discover?

- A. The printing press is broken.
- B. The maps show a road turning the wrong direction.
- C. His uncle has lost the order.
- D. The merchant wants more than fifty maps.

24. Why does Eli stop the press?

- A. He wants to leave the shop.
- B. He needs to wait for more paper.
- C. He decides accuracy is more important than finishing on time.
- D. He is afraid of operating the press alone.

25. What does the uncle mean by 'Trust is harder to print twice'?

- A. Customers prefer maps with dark ink.
- B. It is difficult to repair a damaged reputation.
- C. Printing presses should be used carefully.
- D. Eli must make two copies of every map.

26. Which trait best describes Eli?

- A. Honest
- B. Impatient
- C. Careless
- D. Secretive

27. Why is the final paragraph important?

- A. It shows that Eli's honesty helped him later.
- B. It explains how maps were sold.
- C. It proves the merchant forgot the delay.
- D. It shows that Eli stopped making maps.

28. Which theme is best supported by the passage?

- A. Speed is more important than quality.
- B. Honesty can build lasting trust.
- C. Young people should avoid difficult work.
- D. Mistakes cannot be corrected.

Bats at Work

Bats are sometimes described as frightening, but they perform valuable jobs in many ecosystems. Most bat species eat insects, fruit, or nectar rather than blood.

An insect-eating bat can capture hundreds of insects in a single hour. By feeding on moths and beetles, bats may reduce the number of pests that damage crops. Fruit-eating bats spread seeds when they carry fruit or release seeds in new places. Nectar-feeding bats pollinate flowers as pollen sticks to their fur.

Bats also help scientists understand environmental change. Because many bats live a long time and depend on healthy habitats, sudden declines in bat populations can warn researchers that an ecosystem is under stress.

Unfortunately, bats face threats from habitat loss, pesticides, wind turbines, and disease. People can help by protecting caves, leaving dead trees standing when safe, reducing pesticide use, and installing bat houses in suitable locations.

29. What is the main idea?

- A. All bats drink blood.
- B. Bats provide several benefits but also face threats.
- C. Bats are the largest flying animals.
- D. People should keep bats as pets.

30. How can fruit-eating bats help forests?

- A. They dig holes for roots.
- B. They spread seeds to new places.
- C. They remove dead trees.
- D. They keep flowers warm.

31. Why can bat declines warn scientists about an ecosystem?

- A. Bats depend on healthy habitats.
- B. Bats count other animals.
- C. Bats always move before storms.
- D. Bats build nests near laboratories.

32. Which action would most directly protect a bat's shelter?

- A. Planting wheat
- B. Protecting caves
- C. Removing all insects
- D. Increasing outdoor lights

33. Which statement is supported by the passage?

- A. Every bat species eats insects.
- B. Bats can assist farming by eating crop pests.
- C. Wind turbines provide ideal bat homes.
- D. Bats live only in forests.

Books for Everyone

Early American libraries were often private collections owned by wealthy individuals, churches, or colleges. In 1731, Benjamin Franklin and a group of craftspeople in Philadelphia created the Library Company. Members paid fees that were used to purchase books, and members could borrow from the shared collection.

Subscription libraries spread, but they were not free. During the 1800s, reformers argued that communities should support libraries open to all residents. Towns began using tax money to establish public libraries. These libraries offered books, newspapers, lectures, and quiet places to study.

Between 1883 and 1929, businessman Andrew Carnegie helped fund the construction of more than 1,600 public library buildings in the United States. Communities usually had to provide the land and promise to pay for staff and maintenance. This requirement was meant to ensure that each town would continue supporting its library.

Modern public libraries still lend books, but many also provide computers, internet access, classes, meeting rooms, and digital materials. Their services have changed, yet their central goal remains: giving community members access to information.

34. How did the Library Company obtain money for books?

- A. Members paid fees.
- B. The national government paid for everything.
- C. Books were sold each week.
- D. Colleges donated all the books.

35. How were public libraries different from subscription libraries?

- A. They had no books.
- B. They were supported by communities and open more broadly.
- C. They were located only in colleges.
- D. They allowed only craftspeople to enter.

36. Why did Carnegie require towns to support staff and maintenance?

- A. To make libraries smaller
- B. To ensure libraries would keep operating
- C. To prevent residents from borrowing books
- D. To make towns return the construction money

37. What has remained the same about public libraries?

- A. They use the same buildings.
- B. They charge every visitor a fee.
- C. They provide access to information.
- D. They offer only printed books.

38. Which text structure is used most in the passage?

- A. Chronological order
- B. Problem and solution only
- C. Steps in a procedure
- D. Question and answer

Two Views on the School Garden

PASSAGE A: A Garden Worth Growing

Our school should turn the unused courtyard into a vegetable garden. Students could measure plant growth in science, calculate garden areas in math, and write observations in language arts. Working in teams would also teach responsibility. The harvest could be donated to a local food pantry. Although the garden would require work, it would turn an empty space into an outdoor classroom.

PASSAGE B: Start Smaller

A school garden sounds useful, but the courtyard project may be too large for the first year. Gardens need watering during weekends and summer, and tools, soil, and fencing cost money. Instead, each class could begin with two

raised boxes near the building. After learning what works, the school could expand. A small successful garden would be better than a large garden that is neglected.

39. What do both authors agree about?

- A. A garden could benefit students.
- B. The courtyard should remain empty.
- C. The garden should be finished in one week.
- D. Students should never water plants.

40. How do the authors mainly differ?

- A. They disagree about whether plants need water.
- B. They disagree about how large the first garden should be.
- C. They disagree about whether schools teach science.
- D. They disagree about using raised boxes.

41. Which evidence does Passage A use to support its claim?

- A. Gardens may cost money.
- B. Plants need weekend watering.
- C. The garden could support several school subjects.
- D. Raised boxes are close to the building.

42. Which concern is emphasized in Passage B?

- A. Students dislike vegetables.
- B. A large garden may be difficult to maintain.
- C. The courtyard gets too much sunlight.
- D. Food pantries do not accept vegetables.

43. Which plan would best combine both authors' ideas?

- A. Do not build any garden.
- B. Build a small garden first and expand it for lessons if successful.
- C. Plant the entire courtyard without a schedule.
- D. Allow only teachers to use the garden.

Written Expression - Part 2

Questions	Suggested time	Materials
20	20 minutes	Pencil and scratch paper

Directions: Each item has three lines. Choose the line containing a usage or grammar error. Choose D if there are no mistakes.

Do not begin until the person administering the practice test says to start.

- A. Each of the players
- B. have a water bottle
- C. beside the bench.

21. Which line contains an error?

- A. A
 - B. B
 - C. C
 - D. D - No mistakes
- A. Marcus and me
 - B. carried the boxes
 - C. into the classroom.

22. Which line contains an error?

- A. A
 - B. B
 - C. C
 - D. D - No mistakes
- A. The bright red kite
 - B. flew higher than
 - C. all of the other kites.

23. Which line contains an error?

- A. A
 - B. B
 - C. C
 - D. D - No mistakes
- A. Yesterday, we seen
 - B. a deer standing
 - C. near the trail.

24. Which line contains an error?

- A. A
 - B. B
 - C. C
 - D. D - No mistakes
- A. The puppy wagged
 - B. it's tail whenever
 - C. the door opened.

25. Which line contains an error?

- A. A
- B. B
- C. C
- D. D - No mistakes

- A. Neither of the answers
- B. seem correct
- C. to the students.

26. Which line contains an error?

- A. A
 - B. B
 - C. C
 - D. D - No mistakes
- A. We had already eaten
 - B. when Dad brought
 - C. the sandwiches inside.

27. Which line contains an error?

- A. A
 - B. B
 - C. C
 - D. D - No mistakes
- A. The museum guide
 - B. spoke clear so
 - C. everyone could understand.

28. Which line contains an error?

- A. A
 - B. B
 - C. C
 - D. D - No mistakes
- A. My sister is
 - B. the tallest of
 - C. the two cousins.

29. Which line contains an error?

- A. A
 - B. B
 - C. C
 - D. D - No mistakes
- A. There is three books
 - B. about astronomy
 - C. on the shelf.

30. Which line contains an error?

- A. A
 - B. B
 - C. C
 - D. D - No mistakes
- A. If I was
 - B. the team captain,
 - C. I would ask everyone.

31. Which line contains an error?

- A. A
- B. B
- C. C
- D. D - No mistakes

- A. The class finished
- B. its project before
- C. the final bell rang.

32. Which line contains an error?

- A. A
 - B. B
 - C. C
 - D. D - No mistakes
- A. Her and Keisha
 - B. planted tulip bulbs
 - C. along the fence.

33. Which line contains an error?

- A. A
 - B. B
 - C. C
 - D. D - No mistakes
- A. The storm moved
 - B. more quick than
 - C. the forecast predicted.

34. Which line contains an error?

- A. A
 - B. B
 - C. C
 - D. D - No mistakes
- A. We chose the route
 - B. that was most shortest
 - C. on the map.

35. Which line contains an error?

- A. A
 - B. B
 - C. C
 - D. D - No mistakes
- A. The basket of apples
 - B. were sitting
 - C. on the counter.

36. Which line contains an error?

- A. A
 - B. B
 - C. C
 - D. D - No mistakes
- A. Jamal carefully measured
 - B. each board before
 - C. he cut it.

37. Which line contains an error?

- A. A
- B. B
- C. C
- D. D - No mistakes

- A. The twins shared
- B. the snacks between
- C. all five students.

38. Which line contains an error?

- A.** A
 - B.** B
 - C.** C
 - D.** D - No mistakes
- A. Our teacher asked
 - B. whether we had brought
 - C. our permission slips.

39. Which line contains an error?

- A.** A
 - B.** B
 - C.** C
 - D.** D - No mistakes
- A. This puzzle is
 - B. difficulter than
 - C. the one we solved yesterday.

40. Which line contains an error?

- A.** A
- B.** B
- C.** C
- D.** D - No mistakes

Mathematics - Part 2

Questions	Suggested time	Materials
30	30 minutes	Pencil and scratch paper

Directions: Solve each problem. Interpret any data given and choose the best answer.

Do not begin until the person administering the practice test says to start.

31. Which statement is true?

- A. $\frac{2}{3} < \frac{3}{5}$
- B. $\frac{5}{8} > \frac{3}{4}$
- C. $\frac{7}{10} = \frac{14}{20}$
- D. $\frac{4}{9} > \frac{1}{2}$

32. Which fraction is located halfway between 0 and 1 on a number line?

- A. $\frac{1}{4}$
- B. $\frac{1}{3}$
- C. $\frac{1}{2}$
- D. $\frac{3}{4}$

33. A tank is $\frac{7}{8}$ full. After $\frac{3}{8}$ of the tank is used, what fraction remains full?

- A. $\frac{1}{2}$
- B. $\frac{4}{16}$
- C. $\frac{5}{8}$
- D. $\frac{10}{8}$

34. Which expression represents 3 divided by $\frac{1}{5}$?

- A. $3 \times \frac{1}{5}$
- B. 3×5
- C. $\frac{1}{5} \times \frac{1}{3}$
- D. 5 divided by 3

35. A class used $1\frac{3}{4}$ boxes of paper on Monday and $2\frac{1}{2}$ boxes on Tuesday. How many boxes were used total?

- A. $3\frac{1}{4}$
- B. 4
- C. $4\frac{1}{4}$
- D. $4\frac{3}{4}$

36. What is $4.72 + 3.8$?

- A. 8.52
- B. 8.12
- C. 7.152
- D. 5.10

37. What is $12.5 - 7.68$?

- A. 4.72
- B. 4.82
- C. 5.18
- D. 5.82

38. What is 6.4×10 ?

- A. 0.64
- B. 6.04
- C. 64
- D. 640

- 39.** What is 0.37×6 ?
- A. 0.222
 - B. 2.02
 - C. 2.22
 - D. 22.2
- 40.** A runner completes 2.75 miles on Monday and 3.6 miles on Wednesday. What is the total?
- A. 5.35
 - B. 6.25
 - C. 6.35
 - D. 6.85
- 41.** Which decimal is equivalent to $7/10$?
- A. 0.07
 - B. 0.7
 - C. 7.0
 - D. 0.17
- 42.** Which number is greatest?
- A. 4.09
 - B. 4.9
 - C. 4.19
 - D. 4.099
- 43.** Round 18.746 to the nearest hundredth.
- A. 18.7
 - B. 18.74
 - C. 18.75
 - D. 18.8
- 44.** A notebook costs \$2.45. What is the cost of 4 notebooks?
- A. \$6.45
 - B. \$8.80
 - C. \$9.80
 - D. \$10.20
- 45.** A jug contains 5.0 liters. After 1.86 liters are poured out, how much remains?
- A. 3.04 L
 - B. 3.14 L
 - C. 4.14 L
 - D. 6.86 L
- 46.** A rectangle has length 12 cm and width 7 cm. What is its area?
- A. 19 cm^2
 - B. 38 cm^2
 - C. 84 cm^2
 - D. 168 cm^2
- 47.** A rectangular garden has a perimeter of 30 meters. Its length is 9 meters. What is its width?
- A. 6 m
 - B. 7 m
 - C. 12 m
 - D. 21 m

48. A rectangular prism is 5 units long, 3 units wide, and 4 units high. What is its volume?
- A. 12 cubic units
 - B. 20 cubic units
 - C. 47 cubic units
 - D. 60 cubic units
49. Which unit is most appropriate for measuring the volume of a classroom?
- A. square centimeters
 - B. cubic meters
 - C. meters
 - D. milliliters
50. An angle measuring 125 degrees is -
- A. acute
 - B. right
 - C. obtuse
 - D. straight
51. Which shape always has four right angles and four equal sides?
- A. trapezoid
 - B. rhombus
 - C. rectangle
 - D. square
52. Point A is at (2, 5) and point B is at (2, 9). How many units apart are the points?
- A. 2
 - B. 4
 - C. 7
 - D. 11
53. A 3-foot board is how many inches long?
- A. 12
 - B. 24
 - C. 36
 - D. 48
54. The table shows books read: Ana 6, Ben 9, Cara 5, Diego 8. How many more books did Ben read than Cara?
- A. 3
 - B. 4
 - C. 5
 - D. 14
55. The numbers 4, 6, 6, 7, and 12 have which mode?
- A. 4
 - B. 6
 - C. 7
 - D. 12
56. A bag has 3 red, 5 blue, and 2 green marbles. What is the probability of choosing a green marble?
- A. $\frac{1}{10}$
 - B. $\frac{1}{5}$
 - C. $\frac{1}{2}$
 - D. $\frac{2}{5}$

57. A line plot shows lengths 2, 2, 3, 3, 3, 4, 5 inches. How many measurements are at least 3 inches?
- A. 3
 - B. 4
 - C. 5
 - D. 7
58. Which rule describes the ordered pairs (1,4), (2,7), (3,10), (4,13)?
- A. $y = x + 3$
 - B. $y = 2x + 2$

Spelling

Questions	Suggested time	Materials
30	10 minutes	Pencil and scratch paper

Directions: In each row, one word may be misspelled. Choose that word. Choose E if all four words are spelled correctly.

Do not begin until the person administering the practice test says to start.

1. Which word is misspelled?

- A. receive
- B. believe
- C. achieve
- D. recieve
- E. No mistakes

2. Which word is misspelled?

- A. necessary
- B. separate
- C. definite
- D. occured
- E. No mistakes

3. Which word is misspelled?

- A. calendar
- B. grammar
- C. library
- D. address
- E. No mistakes

4. Which word is misspelled?

- A. beautiful
- B. wonderful
- C. carefull
- D. helpful
- E. No mistakes

5. Which word is misspelled?

- A. running
- B. planned
- C. stoping
- D. beginning
- E. No mistakes

6. Which word is misspelled?

- A. happily
- B. easily
- C. angrily
- D. truely
- E. No mistakes

7. Which word is misspelled?

- A. friendship
- B. movement
- C. kindness
- D. arguement
- E. No mistakes

8. Which word is misspelled?

- A. probably
- B. different
- C. interesting
- D. unusual
- E. No mistakes

9. Which word is misspelled?

- A. temperature
- B. government
- C. environment
- D. enviroment
- E. No mistakes

10. Which word is misspelled?

- A. decision
- B. discussion
- C. permission
- D. ocassion
- E. No mistakes

11. Which word is misspelled?

- A. knowledge
- B. knuckle
- C. knee
- D. nife
- E. No mistakes

12. Which word is misspelled?

- A. straight
- B. weight
- C. height
- D. hieght
- E. No mistakes

13. Which word is misspelled?

- A. musician
- B. electrician
- C. magician
- D. physican
- E. No mistakes

14. Which word is misspelled?

- A. countries
- B. babies
- C. familys
- D. stories
- E. No mistakes

15. Which word is misspelled?

- A. wolves
- B. knives
- C. shelves
- D. roofs
- E. No mistakes

16. Which word is misspelled?

- A. quiet
- B. quite
- C. quit
- D. question
- E. No mistakes

17. Which word is misspelled?

- A. explain
- B. example
- C. examine
- D. exsist
- E. No mistakes

18. Which word is misspelled?

- A. muscle
- B. circle
- C. article
- D. vehical
- E. No mistakes

19. Which word is misspelled?

- A. business
- B. busy
- C. busier
- D. buisness
- E. No mistakes

20. Which word is misspelled?

- A. address
- B. across
- C. amount
- D. acomplish
- E. No mistakes

21. Which word is misspelled?

- A. piece
- B. field
- C. chief
- D. freind
- E. No mistakes

22. Which word is misspelled?

- A. surprise
- B. promise
- C. exercise
- D. practice
- E. No mistakes

23. Which word is misspelled?

- A. careless
- B. fearless
- C. useless
- D. hopless
- E. No mistakes

24. Which word is misspelled?

- A. beginner
- B. swimmer
- C. traveler
- D. runer
- E. No mistakes
